

Renfrewshire's Community Learning and Development Strategy 2021 - 2024

“Working together to ensure our communities, people and families living in Renfrewshire have the capacity, support, resilience and opportunities they need to thrive.”

Renfrewshire's strong partnership seeks to empower people of all ages to work individually and collectively to influence positive change in their lives and their communities. This strategy delivers collaborative working across public services and 3rd sector partners, encouraging joined up approaches to tackle emerging issues and concerns and to support community engagement, community empowerment and community capacity building. The resulting activities and action plan, set out in this strategy, set out an ambitious plan of action over the next three years that will deliver real opportunities for individuals, families and communities across Renfrewshire to develop capacity, shape community aspirations and develop and maintain the services and facilities they want locally.
